Summary

Highly skilled in using PHP, Laravel, and Vue JS, I am well-versed in full-stack web development. My hands-on experience includes designing and implementing database schemas, developing modern user interfaces, and adhering to best practices for maintaining the security and performance.

Experience

Wafilife

Executive,Product Management Team

june-2024

At Wafilife, I manage the process of uploading books to the website, ensuring accurate categorization and adherence to Islamic principles. I analyze market trends to select books from publishers that align with customer preferences and contribute to increased sales. Additionally, I maintain detailed visual reports of my work to ensure transparency and track progress effectively.
